OUR POOR OLD OCTOPUS.
THE HEAVY CHAIN STORE.
THE LONDON TIMES THINKS.
THE TOUGH ONE SPEAKS.

By Arthur Brisbane

PITY Standard Oil, venerable 60-year-old octopus.

First the government chopped it up. That was sad. Now little independent companies compete with it, as Jack the Giant Killer competed with the giant.

Yesterday, in New York, "Standard," goaded to heavy anger, cut gasoline 1 cent a gallon because the little independents were undercutting. Immediately little independents cut 1 cent under Standard.

AND THEN "SHELL OIL" appears, genuine imported octopus from Britain and Holland, financed by the British, managed by the intelligent Deterding Dutch by birth, British in diplomatic finesse. That "Shell" concern is as voracious as the cormorant, and how it annoys our old octopus.

Major Cohen, who publishes the Atlanta Journal, says, "Shell is constantly opening new stations." His home town will have 75 stations there before long.

This for the information of American companies. Our government forbids them to combine while British-Dutch Shell jumps up and down on their stomachs.

CHAIN STORES ARE HERE, the chains getting bigger, and the little retail man complaining that they are getting heavier. They have the financing power, the selling power, buying power. To compete with them, build other chains, longer, heavier.

JAMES A. HEARN & SON of 14th st. and Fifth ave., New York, dry goods firm more than a hundred years old, plans a chain of 15 department stores. Clarksons Co., one of New York's ablest merchants will know how to make it go.

Other great department stores have adopted the chain idea. Marshall Field reached out to Seattle, started branch stores in Chicago, and is considering Cleveland. Gimbels Bros. have long since been established in many cities. Macy & Co. of New York have in Atlanta, Newark, Toledo, powerful branch establishments, and, it is said, are considering branch stores in New York's borough outside of Manhattan. Bullocks have established their first branch store in Los Angeles.

Secretary Mellon, advising caution in financing stores, says banks must be careful not to overbranch banking.

Be careful, of course, but in modern retailing, the chain is the thing. It will help solve the problem of economical distribution, which is the modern problem, but it is hard on the individual storekeeper.

Alleged Disorderly House Operators To Appear In Court March 4

Gladys Blair and Margaret Riggs, charged by Salem police with being in an alleged disorderly house will go to trial in Mayor John M. Davidson's court Tuesday, March 4. Davidson announced today.

Both women deny charges filed against them in affidavits by Police Chief T. W. Thompson in which Miss Riggs is alleged to have been residing at the disorderly house and Miss Blair is charged with keeping the disorderly place. They furnished bond of \$50 for trial.

The women were arrested as a result of a raid by police on a South Ellsworth ave. residence in which 18 men were arrested. Bonds of \$10.60 were posted by 16 of the men on charges of resorting to a disorderly house while two were forced to post bonds of \$26.20 on disorderly conduct charges.

A check-up in Mayor Davidson's office today resulted in the announcement that bonds in all cases are declared forfeited because of non-appearance of the defendants for arraignment.

PEACE-TIME CASUALTIES

The appalling aspect of the huge peace-time casualty lists reported by industry is the indifference with which they are accepted by the public. Striving to make violent death by warfare impossible, millions of citizens yet assume that large numbers of workers must die and sustain serious injuries in factories, mines, mills and quarries.

There are more fatal and non-fatal accidents reported in Ohio industries during 1929 than there were in the Ohio troops participating in the entire period of the World War. The state's contribution of officers and enlisted personnel in that disastrous struggle totaled 239,609. During 1929, 261,000 workers in Ohio industries were victims of accidents. Of this number, 1,265 were killed, 35 sustained permanent total disability and 2,585 sustained mishaps causing permanent partial disability.

The time loss resulting from accidents during the year reached a total of 11,732,479 days and an economic loss of millions of dollars.

Arms, legs, hands, eyes, fingers and toes were sacrificed last year and will be sacrificed again. An examination of the accidents classified according to trades and industries shows that building erection and demolition is highest in the number of fatalities with 144 deaths. It is closely followed by metal goods manufacture with 128. Mining, commercial employment, steel works and rolling mills and public employment also were hazardous.

Considerable progress has been made toward the ideal of safety, but the most difficult part of the progress lies ahead. Obvious dangers have been removed in most cases; those remaining are frequently what might be termed border-line cases, in which the worker is held equally responsible with forces beyond his control. They are the accidents which result from carelessness, lack of precaution and misinformation. Faults in the human element cannot be eliminated entirely by changes in mechanical construction however, and for that reason it is probable that the irreducible minimum in industrial accidents will still show a certain number of fatalities.

Meanwhile the public conscience must be aroused to the needless waste of life and time in avoidable accidents. Improved machinery and intelligent safety programs should assure consistent reduction.

A Washington wife says that those who opposed approval of the nomination of Mr. Hughes "concede the nominee's legal ability, personal integrity and moral qualifications." That's something of a concession to come from the blatherskite radical element of the senate.

A Chicago woman suing for divorce charges that when her husband did not have money enough to get drunk he would get on a Scotch jag. That is, he would run round and round until he got dizzy. Pretty tame stuff. He probably hadn't lived in Chicago long.

It is not certain that such is his purpose, but if Senator Norris has a longing to be known as a common scold, he should take pleasure in the knowledge that attainment of that desire is near at hand.

What Others Say

For Friday, February 28.

Under the fairly propitious sway of the planets ruling this day there may be progress and promotion, especially in employment. An agreeable change is indicated, with recognition and return for industry and fidelity, but money matters should be manipulated with much prudence. Shun speculation.

Those whose birthday it is may prepare for a year of promotion and preferment, with sound recognition for diligence and fidelity, but they should be conservative and watchful in the handling of all funds, as loss through extravagance, rashness and speculation is indicated. A child born on this day should attain good position in life by its own merits but should be trained in wise handling of its accumulation.

THE BUSY PENNY

That humble coin, the copper cent has a place of real importance in the business life of the nation. The mint at Philadelphia last year had the task of turning out 185,262,000 pennies, to increase the circulation to meet the demands for small change. There may be only a few articles one may purchase for a penny, but there are many thousands of articles in the purchase of which the penny is necessary. There was a time when articles for the public sold for a nickel, or many nickels, but the penny has chased the nickel out of the picture as the leading coin in general buying of the articles one needs in daily life. The annual demand for more pennies shows the activities of that busy and useful coin. We have need for it each day in our purchases. It is the busiest little coin. Uncle Sam has it in circulation. It is used in both large and small business transactions.—Ohio State Journal.

COMMUNISTS IN CALIFORNIA IN POLICE BATTLE

Gathering Attempts Trip To City Hall. But Officials Act

TEAR GAS USED TO QUELL DISTURBANCE

Over Score Arrested As Police Charge Mob; Some Injured

(By The Associated Press)

LOS ANGELES, Feb. 27.—A riot in which 6000 alleged communist sympathizers, milling and shouting, attempted to storm the Los Angeles city hall but were turned back by 300 policemen using tear gas bombs and night sticks, had its aftermath today in the detention of 27 asserted radical leaders.

The police also organized to prevent any possible recurrence of the trouble, which started in the city plaza and ended only after the crowd had been pushed back a second time by the officers.

Pandemonium broke loose when officers first attempted in orderly fashion to disperse the crowd gathered to stage a demonstration which was to culminate with a march up to the city hall. Screaming, scratching women and shouting men swamped bystanders underfoot and shouldered officers aside in a wide scramble from the plaza into the streets.

Carl Sklar, a district organizer for the Communists, hoisted upon the shoulders of two men, started to address the crowd. Attempts of police to take him from his post were met with resistance. Officers were surrounded and struck down. Inflammatory placards appeared over the mob; Communist papers were thrown broadcast.

From out of the crowd came a shout:

"Comrades, charge the police and beat them down."

Armed with tear gas bombs the police finally succeeded in turning the first rush, only to be met by a fresh onslaught from a milling group in Spring street, beginning another movement toward the city hall. Tear bombs stopped them short. The police front stood firm and the uprising quieted rapidly as leaders of the rioters were loaded into patrol wagon and ambulances. Several required emergency treatment before they could be booked at police headquarters.

Much of the rioting took place amid clouds of white tear gas and hundreds of passersby were enveloped in the melee.

Director-Playwright Engage in Quarrel

HOLLYWOOD, Calif., Feb. 27.—A bare-up between Marshall Neilan, director and Arthur Caesar, playwright, in a cafe was being discussed today.

Harsh words were reported to have been exchanged, but there were no fistfights as in the recent Jim Tully-John Gilbert disagreement which has since been patched up.

"I started to sock him," Caesar said.

Neilan's comment was, "nothing to it—it must have been a couple of other guys."

TODAY

Times is sure that the American people will support President Hoover in any such action that he might take.

THE AMERICAN PEOPLE are fond of Mr. Hoover, have great confidence in him.

The London Times is mistaken if it thinks the United States will support the idea that foreign nations should regulate our national defense or the more preposterous suggestion that Americans be sent across the ocean and billions spent, again, in case another fight started in Europe, and the Times underestimates President Hoover's common sense—no other American president it ever met was Wilson.

FRANK McERLANE, "the tough one," shot three times by gangsters as he lay wounded on a hospital cot in Chicago, is home at his mother's now, full of war.

"Never mind who shot me," he tells the police. "McErlane takes care of McErlane. Remember that the next time you find some rat dead in a ditch, like a sieve." "Like a sieve" means with many bullet holes.

Lots of energy and gameness going to waste in our gunmen. The police say McErlane is the inventor of "the ride" from which a man marked and "put on the spot" never returns.

THE REV. JOHN A. RYAN, professor of sociology at the Catholic university, tells the house judiciary committee that President Hoover's request that citizens discourage violation of the Volstead law is a sample of the "muddle-headed thinking" that prohibition has imposed on leaders of thought.

DR. NICHOLAS MURRAY BUTLER, president of Columbia college, demands a repeal of the prohibition amendment.

Demand is one thing, getting is another. What states would vote for repeal?

Thirty-six states are needed to take prohibition out of the constitution. Barring a revolution which we shall not have, Dr. Butler's great-great-grandchildren will be gray before 36 states vote to repeal the prohibition amendment.

TROUBLES MANY TO GALLICCHIO

Domestic Difficulties In Two Nations Followed Pair for Years

LISBON, O., Feb. 27.—Domestic troubles form the back ground of the married life of Domenico Gallicchio, sentenced by Judge W. F. Jones Wednesday to serve from 10 to 20 years in the Ohio penitentiary for shooting his wife, Rosie Gallicchio with intent to kill.

Gallicchio married in Italy and arrived in the United States in 1913. He left his wife in Italy. He enlisted in 1918, but did not see overseas service, and was later given an honorable discharge.

Gallicchio then located in the vicinity of Cleveland, and filed a divorce action in the Cuyahoga county courts. Summons was served upon the Italian counsel at Cleveland. The latter immediately notified Mrs. Gallicchio in Italy, and she then left Italy for Cleveland, arriving there in time to "spoil the show." At the suggestion of the Cleveland court, Gallicchio then married his wife again under the American law, and they located in Lisbon.

The proposal would combine farmers of Ohio, Michigan and Indiana in a national grain-marketing scheme.

William C. Horn, of Castalia, was re-elected president of the association. Other officers who were elected are: L. C. Schmunk, of Rocky Ridge, first vice-president; Leon Cove of Avery, second vice-president; O. W. Cole of Xenia, L. I. Winch of Creston, and Oscar Schlosser of Postoria, directors.

SNOKO

(Continued From Page 1) electric chair.

Sentenced to die sometime between midnight tonight and midnight tomorrow, Dr. Snook, who murdered his co-ed sweetheart, Miss Theora Hix, 24, may be forced to take the death walk through "the little green door" several hours before the usual execution time, due to the intense interest in the sensational case.

Usually condemned men are electrocuted at about 7:30 o'clock in the evening, but Warden P. E. Thomas, who wishes to avoid the milling of crowds around the penitentiary, may move the electrocution forward a few hours, perhaps several hours. This was the general belief.

Refuse to Give Time

Officials at the state institution refused to say when Dr. Snook would "ride the thunderbolt of the law." In reply to all questions, they said, "sometime between midnight tonight and midnight tomorrow."

Attorneys will make a last desperate effort to save the doomed man at a hearing which is to be held before Governor Myers Y. Cooper this afternoon, but Dr. Snook's chances of a stay of execution or a commutation of sentence were quoted as "one in a thousand" in official circles.

If the governor refuses to intervene, attorneys for the man may seek a writ of habeas corpus in the federal district court. E. O. Ricketts, chief of the murderer's defense counsel, said that the writ could be sought on the grounds that the condemned man has been deprived of due process of law as provided by the federal constitution and that the trial was rushed and mob spirit prevailed throughout the case.

Even Judge Doubts Woman's Testimony

CHICAGO, Feb. 27.—The credibility of Judge Harry A. Lewis was taxed by the case of Johnson vs. Johnson, 411-12.

Mrs. Helen Grace Johnson testified her husband, Arthur, was a Scotchman; that he refused her permission to use a vacuum cleaner because it was too hard on the rugs; that he bought all the food—very carefully and that he forced her to wear magnifying glasses at the table so the food would look like more.

"Surely," interposed the court at the point, "there is a limit you know to credibility."

"I am under oath," said Mrs. Johnson, and I swear to it."

She said there was one alarm clock for the whole family.

When it rang in the morning she had to rewind and reset it for other members of the family.

No alimony was asked, none offered.

BETTMAN RULES ON ELECTIONS

Marion Judge Must Hold Post On Bench Until Successor Is Duly Put In Office

(By The Associated Press)

COLUMBUS, O., Feb. 27.—In an opinion today to Alfred Domithen, prosecuting attorney at Marion, Attorney General Gilbert Bettman held that in spite of an apparent conflict between the Marion municipal court act and the new state election code, the present judge of the municipal court at Marion must hold office until his successor is elected at the 1931 election.

The Judge was elected in 1926 for a four year term. The city's election act holds that a judge must hold office until his successor is elected and qualified. Under the new state election law, the judge is one of a number of officials who are elected at elections to be held in odd numbered years.

Construing the two acts jointly, the general held that despite the term expires this year the judge must hold over until his successor is elected in 1931.

Police said the bomb was a home-made black powder type and was constructed of a four inch pipe which was stuffed with tacks, bolts and nuts. No cause for the bombing was determined.

YIQUA, O., Feb. 27.—Bryant Erisman, 70, was held today following his alleged confession that he set fire to the Miami county infirmary last week. The fire caused damage of \$10,000.

Konjola Gives Speedy Relief From Suffering

New Medicine Proves Again Its Powers In the Most Obstinate Of Cases

MR. KATHERINE BEHLE
It is nothing less than astonishing what Konjola did for me," said Mrs. Katherine Beheler, 281 East 21st Street, Cleveland. "I am sixty years old and at my age had begun to fear that there was no relief from rheumatism from which I suffered terribly for years. I was told a dozen times that I had rheumatism in one of its worst forms. Certainly one could not live and endure any more severe aches and pains than I had. My joints were stiff and my limbs were swollen to almost twice their natural size."

"A number of friends begged me to try Konjola's trial, and finally I consented, but with absolutely no idea that Konjola would prove any different from all the other medicines I had tried. I started the treatment eight weeks ago, and today I haven't a sign of rheumatism. What a joy to be free from those terrible pains!"

What Price LAZY APPETITE

"Dear, are you not glad you followed my suggestion when I urged you to try S.S.S. for your lost appetite?"

HAVE you an indifference or loathing for food, or do you really enjoy mealtime?

Fads and fancies come and go. We must be reasonable. You can't afford to wreck your body by "killing" an appetite given you by Nature to nourish your body.

You must really enjoy your meals and assimilate them to restore the waste of the body. Don't expect a strong, sturdy body and a keen mind to carry on if you do not enjoy your food. It just can't be done. Friends, happiness and business success may depend on a keen appetite.

Many thousands have turned to S.S.S. when the appetite signaled danger. It is a time-tested remedy... purely vegetable. Easy to assimilate. Pleasant to take. It will do much to restore the

11 Dead, 100 Injured, Flier Derailed

Eleven persons were killed and at least 100 were injured when a Chicago-bound passenger train of the Chicago, North Shore and Milwaukee Electric Railroad struck an automobile at a grade crossing just north of Kenosha, Wisconsin, and was derailed. The automobile was buried directly into

the path of a north-bound freight train as the cars of the passenger train left the track and into an eight-foot ditch. Telephoned news of the collision, which resulted a toll of human life, sent several to Kenosha hospitals severely injured.

Book Review

Birds Got To Fly
By Ruth Blodgett

"Birds Got to Fly" is a first novel that was chosen by the Book of the Month Club. In it Miss Blodgett shows a keen interest in people, as well as humor and fresh observation.

Rosanne, a very modern girl that has always done things "exactly the way she wants to do them" marries Alec Porter. And here Miss Blodgett has turned the tables and brought a city bred girl into a New England village, Porter Point. The Porters are a law unto themselves and old Gran Porter rules every one of them with an iron hand from Uncle Frazer down to the smallest grandchild.

At first Rosanne is very much pleased with her new environment, being the talk of the season with the likes of Sir Pelham Heritage, the half-brother of Sir Pelham, who loathes him because of his dreaming and his unquenchable thirst. It is then that the young vicar brings light and understanding to these people. Needless to say the book ends happily.

Alec loves her in his quiet reserved way, but his ambition is to be as successful a show manufacturer as his grandfather. So the story goes and a climax is reached when Rosanne decides "to ditch" the whole Porter clan. Alec, then forgets his reserve and assumes the role of cave man and Rosanne decides to stay.

CORONER ACTS IN DEATH CASE

Love Affair With Person Prince
Uncovered By Letter Found
In Woman's Desk

SALT LAKE CITY, Feb. 27.—A coroner's jury investigating the slaying of Mrs. Dorothy Moormeister, 32, whose battered body was found on an isolated road near here last Saturday, expected to complete its inquiry today. Yesterday it listened to revelations of a love affair between the 32-year-old woman and a Persian prince.

Testimony of the woman's husband, Dr. Frank Moormeister, that his discovery of a letter in his wife's desk after the murder revealed his wife's intimacy with Prince Farid of Persia while the Moormeisters were visiting in Paris last year created something of a sensation and shifted investigation of the tragedy.

Dr. Moormeister said that while in Europe he made several side trips, his wife and his daughter, Miss Peggy Moormeister, staying in Paris. He said his wife met the prince and later introduced them.

NEGRO BANDITS TERRORIZE CITY

Kill Man, Rob Many, Take Autos In Day Of Activities

CINCINNATI, O., Feb. 27.—Striking swiftly and in various parts of the city, two Negro desperadoes, who have been terrorizing residents here during the past several weeks, shot and killed another Negro who resisted a holdup attempt, committed five other holdups and stole two automobiles here yesterday, according to police, who have instituted an intensive search with orders today to get the Negroes "dead or alive."

One of the Negro bandits always appears armed with two automatic pistols, while the other is armed with a revolver.

Arnold Ellery, 38, was the bandits' first victim yesterday. He was shot and killed when he attempted to rush to the aid of his wife when the desperados attempted to rob the couple's small store.

Five other holdups were credited to the Negroes as well as the theft of two automobiles.

Prisoner Escapes
From State Camp

COLUMBUS, O., Feb. 27.—Mike Horvath, 18, of Trumbull county, who was sentenced to serve from one to 15 years in the Mansfield reformatory on a burglary charge and who was later sent to the Grafton prison camp in Lorain county, walked away from the "honor camp" yesterday, according to officials of the Ohio state bureau of criminal identification here today. Details of the reported escape are unknown.

Stone, McCord To Direct Salem Track Activities This Year

Springer Turns Over Coaching Duties To Football, Cage Staff

Salem High school track coaching duties will be in charge of Coaches Floyd W. Stone and Harold C. McCord during the 1930 season which will get under way shortly after the close of the annual district basketball tournament scheduled at Akron next week.

Wilbur J. Springer, for five years track and field instructor at the Red and Black, with draws from coaching duties this year in order to devote full time to his duties as principal.

Springer came to Salem in the spring of 1924 as head coach in football, basketball and track. He was assisted in each for two years by Walter W. Wiffier who left in 1927 for a position as coach at LaCrosse, Wis., high school, and last year was aided by J. M. Ruffner, who resigned here to accept a post as principal in another Ohio school.

Wins Five County Titles

During his five years reign as track coach, Springer developed five Columbiana county championship teams. His teams also won championship honors in the northeastern Ohio district meet on three occasions.

THE DAY In Sports

FANS PICK LEAGUE STARS
BASEBALL DEBATES START

The idea of selecting all-league teams by popular selection is being greeted with favor by fans who hitherto have taken issue with other all-star selections and have seldom been given opportunities to voice ideas on the subject on who, in their estimation, are best qualified for membership on such teams. Three teams were submitted to The News today and others are expected before next Monday when all selections will be closed.

City league basketball is probably more popular this year than ever before. There are at least five teams stronger than the average league team and two of exceptional strength. Selection of mythical all-league teams should bring out two aggregations that would probably be able to compete with any Class A league combination in the state with favorable results.

The idea of having the public select their own "who's who" this season was concocted by Michael Schuller, official scorer in the Class A league. It was approved by Joe M. Kelley and when submitted to fans was greeted with enthusiasm, for every spectator has his favorites selected and is willing to tell the world about them.

The selection of such a set of teams presents a hard task to any fan and only those who have been faithful followers of league activities can hope to do justice to such selections. Haphazard pickings are taboo and all should be made with careful thought and study for there are about 20 players in the league who are probably able to compete with one another and none gain any great advantage in any of the game's finer points.

Ten District High Schools Enter Night Relay Event

Ten entries for the first annual invitational night relay carnival,

scheduled for Reilly athletic stadium which last year drew a record-breaking entry of district Class A and B schools to Reilly Stadium, will again be held here and is billed for Saturday, May 17. From displays of talent by Salem thumbnails in this competition, entries will be selected for the state meet which will be held at Columbus on the following Friday.

Mansfield High will inaugurate athletic relationships with the Red and Black on May 31, earning here for a dual meet on that date.

Together with track, a number of minor sports will be included on the school's schedule. A golf match has already been arranged with Youngstown East while arrangements are being made for the organization of a Salem High tennis team.

The carnival will be limited to entries from Ohio due to the fact that sufficient schools are expected to enter from this district and that entrance of additional schools from other states would congest the event to such an extent that it would be impossible to run it off in one night.

Salem, East Palestine, Canfield, Akron Garfield, Lestonia, Canton McKinley, Warren Harding, Colum-

bia, Cortland and Niles McKinley have submitted entries.

Special Events Billed

Regular track and field events will be held in addition to a number of relays and sprint medleys, events which have proved spectacular in relay meets at Columbus and at Lakewood in Cleveland. Five relays will be held of half-mile, one mile, two miles and four miles together with a medley relay.

A large silver trophy cup will be awarded to the winning school while silver trophies will be presented to schools winning the special relays and medleys. Medals will be given individuals winning first, three places in regular contests while four members of each relay team will receive an award.

Preliminaries will be held at 3 p.m. Friday and finals will start at 8 p.m. The meet will be held rain or shine. No discrimination will be made between Class A and Class B schools in final compilation of points.

The conscience is still small voice that shuts up entirely when there's a profit in sight.

Police Search For Conductor's Slayer

COLUMBUS, O., Feb. 27.—Police today were seeking to solve the murder of Charles S. Barrow, 29, rail-light conductor, who was shot to death in his street car by an unidentified killer in what was apparently the climax of an attempted holdup. A small sum of money which Barrow had collected as fares was missing, a portion of Barrow's street car tickets were gone, also. Two unnamed suspects have been detained by officers for questioning.

Boy Morgan, motorman on duty with Barrow said he was at his control box when he heard someone talking to the victim. A moment later he heard the report, and the thud of the murderer's feet as he ran from the car.

Bomb Makers Found Guilty in Chicago

CHICAGO, Feb. 27.—Bomb case convictions which have been rare in comparison with the high number of bombings had two added to their number last night. A jury convicted Michael Casselli and Steve Ficke on charges of manufacturing and selling bombs.

Judge William N. Gemmill pronounced the maximum penalty of five to 25 years imprisonment. When he left the courtroom for home he was escorted by police guard.

As the verdict was read, Casselli leaped onto a chair, shouting curses on judge and jury. Ficke fainted.

The same police safeguards given Judge Gemmill were provided for C. Wayland Brooks, the prosecutor.

WHY FAT MEN STAY FAT

"The trouble with me, and I guess this applies to 99 per cent of the men who are putting on weight, I didn't have the energy or 'pep' to keep it off. Lost all interest in any healthy activity and just lazed around accumulating the old pounds until I got that 'Kruschen' feeling."

Start taking Kruschen Salts—that's the common-sense way to reduce—but don't take them with the idea that they possess reducing qualities in themselves.

This is what they do—they clean out the impurities in your blood by keeping the bowels, kidneys and liver in splendid working shape and fill you with a vigor and tireless energy you'd most forgotten had existed.

As a result instead of planting yourself in an easy chair every free moment and letting flabby fat accumulate you feel an urge for activity that keeps you moving around doing the things you've always wanted to do and needed to do to keep you in good condition.

Then watch the pounds slide off! Kruschen Salts are the up-to-date Fountain of Youth. Take one half teaspoonful in a glass of hot or cold water tomorrow morning and every morning—and if they don't change your whole idea about reducing, go back and get the small price you paid for them. Get an 85 cent bottle of Kruschen Salts—lasts 4 weeks—at Lease Drug Co. stores, or any progressive druggist anywhere in the world.
